24. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

GPIL conducted a meticulous materiality study to determine the most critical issues among a broad range of topics that concern their significant stakeholder groups. These stakeholders include value chain partners, suppliers, investors, employees, and the community.

After a thorough analysis of the needs and expectations of these stakeholders, GPIL identified the top 11 material topics that have the most significant impact on their business and stakeholders. These topics were selected based on their potential to affect the Company's long-term sustainability and to align with its overall business objectives.

GPIL has categorized the elements concerning responsible business conduct and sustainability matters related to environmental, social and governance factors, into either a risk or an opportunity. This classification is based on a sound rationale, and the Company has developed an approach to either mitigate or adapt to the identified risks, taking into consideration the financial implications involved. This exercise shall help GPIL to allocate its resources and efforts effectively, focusing on the areas where it can make the most significant impact while addressing the concerns of its stakeholders.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Human Capital Development	Opportunity	Opportunity Perspective: <ul style="list-style-type: none"> Employees are critical to GPIL's operations. Effective human capital management can lead to skilled resources and increased productivity. Investing in employee development can attract and retain top talent. Focusing on employee well-being can improve the work environment and increase employee satisfaction. Human Capital Development is crucial for creating a sustainable business model that benefits GPIL and its employees. 		Positive <ul style="list-style-type: none"> Improved employee productivity and performance, leading to increased profitability and competitiveness Lower employee turnover rates and associated costs, such as recruitment and training expenses Enhanced ability to attract and retain top talent, leading to better innovation and business outcomes Improved reputation as an employer, leading to increased customer and investor confidence and loyalty Improved compliance with labour laws and regulations, leading to reduced legal and regulatory risks and associated costs Negative <ul style="list-style-type: none"> High cost of training and development programs
2	Community Development	Opportunity and Risk	Opportunity Perspective: <ul style="list-style-type: none"> Investing in community development programs is an opportunity for GPIL to create shared value for both the Company and the communities in which it operates. GPIL can build strong relationships with local stakeholders by promoting economic growth and improving the standard of living for local residents. Working closely with local communities can provide valuable insights into stakeholder needs and preferences, helping GPIL tailor its community initiatives to better meet those needs. Investing in community development results in long-term business growth. GPIL can develop valuable partnerships and collaborations with local organizations and businesses, creating new opportunities for growth and expansion. Risk Perspective : <ul style="list-style-type: none"> Failure to mobilise community to adopt new methods, technology or initiatives can lead to friction between the Company and the community on other issues. The investments made for the project that fails impacts the plan for other communities. 		Positive <ul style="list-style-type: none"> Developing valuable partnerships and collaborations with local organizations and businesses, leading to new business opportunities. Negative <ul style="list-style-type: none"> Higher operational costs

3	Human Rights	Risk	<p>Risk Perspective:</p> <ul style="list-style-type: none"> The Company's operations and supply chain have the potential to impact the human rights of various stakeholders, including employees, suppliers, and local communities. Violations of human rights can lead to legal and regulatory sanctions, potentially resulting in operational disruptions and negative financial implications for the company. 	<p>GPIL takes a proactive approach in promoting human rights awareness and training among employees. GPIL conducts regular training for all employees on POSH and human rights. All of GPIL's plants and facilities are ISO certified and are audited by ISO bodies for issues related to human rights periodically. The Company's 'People First' policy extends to all its stakeholders, including value chain partners and farmers, and the Company's values are incorporated in various policies that ensure regard for human rights. In case of any grievances, the Company has well-established grievance redressal mechanisms for all stakeholders.</p>	<p>Positive</p> <ul style="list-style-type: none"> Positive brand identity for upholding human rights. <p>Negative</p> <ul style="list-style-type: none"> Financial repercussions such as fines and penalties for non-compliance. Short term operational costs for human rights trainings.
4	Corporate Governance	Risk and Opportunity	<p>Risk Perspective:</p> <p>Failure to adhere to corporate governance standards can result in reputational damage. Inadequate corporate governance practices can expose the Company to risks such as fraud, corruption, and mismanagement.</p> <p>Opportunity Perspective:</p> <p>Good corporate governance practices provide an opportunity for GPIL to enhance its reputation and improve long-term sustainability. Effective corporate governance can promote transparency, accountability, and ethical behaviour, which can strengthen stakeholder trust and engagement.</p>	<p>The Company is committed to adhering to responsible business practices and upholding the highest standards of Corporate Governance. The Corporate Governance policies of the Company are well-researched and fall in line with all regulatory requirements. Additionally, the Company's Code of Business Conduct outlines the values and expected behaviour required by its Board of Directors and senior management personnel while dealing with various stakeholders.</p>	<p>Positive</p> <ul style="list-style-type: none"> Effective corporate governance can improve a Company's performance, leading to increased shareholder value and a stronger financial position. Companies with good corporate governance practices may experience lower costs associated with legal and regulatory compliance, as well as a reduced risk of fines and penalties. <p>Negative</p> <ul style="list-style-type: none"> Losses, fines, or penalties as a result of non-compliance.
5	Data Security and Privacy	Risk	<p>Risk Perspective:</p> <p>Mismanagement of data might lead to reputational and regulatory issues. Data breaches can result in the loss of sensitive information, which can harm the Company's reputation and lead to significant financial damages.</p>	<p>The Information Security Policy has been designed to ensure data privacy and cybersecurity. It establishes a framework for implementing Information Security Management and raises awareness about security concerns related to the organization's IT infrastructure and data.</p>	<p>Positive</p> <ul style="list-style-type: none"> Effective data management can help organizations identify and mitigate potential risks, such as cybersecurity threats or regulatory compliance issues. This can help avoid costly penalties and reputational damage. <p>Negative</p> <ul style="list-style-type: none"> Increased cost in short term for implementing privacy and cybersecurity measures.

6	Responsible Sourcing	Opportunity	<p>Opportunity Perspective: Implementing responsible sourcing practices can help GPIL ensure ethical, social, and environmental standards being met throughout its supply chain. This can enhance the Company's reputation and brand image, building trust and loyalty among customers, investors, and other stakeholders. Responsible sourcing can also lead to cost savings by reducing risks associated with non-compliance or supply chain disruptions. By working closely with suppliers, GPIL can identify opportunities for innovation and continuous improvement, leading to long-term sustainability and growth. Furthermore, responsible sourcing can help GPIL meet regulatory requirements and demonstrate compliance with international standards.</p>	-	<p>Positive</p> <ul style="list-style-type: none"> Improved supplier relationships and reduced supply chain disruptions can lead to lower procurement costs and improved efficiency. Reduced legal and regulatory risks Lower environmental impact and improved social responsibility can lead to cost savings and improved brand value. <p>Negative</p> <ul style="list-style-type: none"> Non-compliance with responsible sourcing practices can lead to supply chain disruptions, product recalls, legal penalties, and reputational damage, resulting in higher costs and lower profitability.
7	Waste Management	Risk and Opportunity	<p>Opportunity Perspective:</p> <ul style="list-style-type: none"> Effective waste management can result in cost savings by reducing waste disposal costs, minimizing resource consumption, and increasing operational efficiency. This can create long-term value for the Company and enhance its competitiveness in the market. Sustainable waste management practices can enhance the Company's reputation and strengthen stakeholder trust and engagement. Compliance with waste management regulations can mitigate legal and financial risks associated with non-compliance. <p>Risk Perspective:</p> <ul style="list-style-type: none"> Waste management practices related to end user disposal is difficult to track. Inefficient waste management practices can result in increased costs, such as higher disposal fees, fines for non-compliance with waste management regulations, and potential legal liabilities. 	<p>The Company's waste management approach focuses on reducing waste generation and promoting a circular economy by reusing and recycling waste. To maximize waste utilization, the Company has introduced biodegradable packaging materials for its products, such as cigarette boxes and Biaxially Oriented Poly Propylene (BOPP). This not only helps in reducing the amount of waste generated but also promotes sustainability.</p> <p>GPIL further complies with Extended Producer's Responsibility (EPR) norms and Plastic Waste Management Rules (2016), along with all the regulations provided by Central Pollution Control Board (CPCB).</p>	<p>Positive</p> <ul style="list-style-type: none"> Implementation of effective waste management practices can lead to cost savings by reducing waste generation and disposal expenses. It can also improve the efficiency of resource use and reduce the need for new raw materials, leading to potential cost savings. <p>Negative</p> <ul style="list-style-type: none"> Non-compliance with waste management regulations can result in fines and penalties imposed by regulatory bodies. Poor waste management practices can lead to increased costs for waste disposal and potential environmental clean-up efforts

8	Water Management	Risk and Opportunity	<p>Opportunity Perspective: By implementing water-efficient technologies and processes into its operations and plants, minimizing waste and pollution, and engaging in community water stewardship initiatives, GPIL can save money on water bills, improve productivity, and demonstrate a commitment to environmental sustainability.</p> <p>Risk Perspective:</p> <ul style="list-style-type: none"> • Tobacco farming and cigarette manufacturing are water-intensive processes that require continuous water provision, posing a risk to effective water management and mindful use of resources. • Water scarcity can also impact the availability of water in other areas of operations due to climate change. • Delays related to water availability can lead to production delays, as water is an essential component of growing and processing tobacco. 	<p>The Company is considering and working towards minimizing water discharge after treatment. Additionally, the Company has implemented rainwater harvesting facilities and effluent treatment plants in various manufacturing facilities to ensure optimal water storage and reuse. The Company has also implemented various water shed initiatives such as check dams, borewell recharges, pond development, etc. in its Leaf division area. The Company also conducts awareness sessions to encourage employees and value chain partners to use water resources mindfully.</p>	<p>Positive</p> <ul style="list-style-type: none"> • Cost savings through water efficiency. • Adherence to compliances related to water consumption and discharge to avoid fines and penalties. <p>Negative</p> <ul style="list-style-type: none"> • Increased short term operational costs.
9	Biodiversity Management	Risk and Opportunity	<p>Opportunity Perspective: Biodiversity initiatives can enhance the reputation of GPIL and demonstrate a commitment to environmental sustainability. Strengthening stakeholder relationships by engaging with local communities and biodiversity experts to develop conservation programs. Enhancing long-term sustainability by preserving natural resources and ecosystems that are critical to the Company's operations.</p> <p>Risk Perspective: Biodiversity loss and degradation can disrupt supply chains and increase costs for GPIL, as well as negatively impact local communities and ecosystems.</p>	<p>Through its CSR initiatives, GPIL is increasing the green cover around its facilities and also created separate biodiversity plantations. Moreover, GPIL has taken utmost care to not have any operations in and around ecologically sensitive areas. By selecting suppliers that prioritize biodiversity conservation and working with them to ensure sustainable sourcing practices. By implementing biodiversity conservation measures, such as habitat restoration and protection, the Company can contribute to the preservation of natural resources, support local communities.</p>	<p>Positive</p> <ul style="list-style-type: none"> • Improved biodiversity conservation can lead to cost savings for GPIL in the long run by reducing the Company's dependence on external resources and improving operational efficiencies. • Improve GPIL's reputation and increase stakeholder engagement, leading to increased investor confidence and potential financial gains. <p>Negative</p> <ul style="list-style-type: none"> • Increased operational costs due to the need for additional resources to maintain or restore biodiversity.

10	Emission and Energy Management	Risk and Opportunity	<p>Opportunity Perspective:</p> <ul style="list-style-type: none"> Cost optimization and reduced consumption can be achieved through energy management, which helps to maximize resource efficiency and decrease costs. The management of energy and emissions reduces the amount of Green House Gases (GHG) that the Company emits. The Company's sustainability goals are directly tied to reducing GHG emissions. <p>Risk Perspective:</p> <ul style="list-style-type: none"> The consumption of non-renewable energy leads to an increase in emissions that contribute to GHG emissions. Energy-intensive manufacturing and production processes pose a risk of increasing GHG emissions. 	Over the years, GPIL has taken several initiatives to lower its GHG emissions by integrating energy-efficient measures into its operations. In its endeavour to energy management, the Company plans to transition to enhanced energy-efficient models and technologies. To this end, the Company is turning to renewable energy sources and scaling up its solar energy consumption while constantly upgrading utilities at different plants. The Company has also shifted to PNG for all its cigarette manufacturing operations. The Company also uses renewable energy to generate ~17% of the total energy used	<p>Positive</p> <ul style="list-style-type: none"> Implementation of energy-efficient technologies and processes can result in cost savings on energy bills in the long run. Reduction of greenhouse gas emissions can lead to the avoidance of carbon taxes and other regulatory penalties. <p>Negative</p> <ul style="list-style-type: none"> Dependence on fossil fuels can expose the Company to price volatility and supply chain disruptions. Increase in energy prices can negatively impact production costs and profitability. Implementing more sustainable practices and technologies may require initial investments or higher operating costs.
11	Climate Risk Mitigation	Risk	<p>Risk Perspective:</p> <ul style="list-style-type: none"> Climate change can impact the supply of tobacco leaves. It can lead to a disruption in tobacco cultivation and production, potentially leading to financial losses for GPIL. Increasing regulations around carbon emissions and energy usage could result in additional costs and compliance burdens for the Company. The physical impacts of climate change, such as extreme weather events and water scarcity, could disrupt the Company's supply chain and operations. GPIL may face reputational damage if it is perceived as not taking sufficient action to address its contributions to climate change or adapt to its impacts. 	GPIL has a comprehensive risk mitigation plan for climate change impact, which ensures all functions synergistically work towards defined ESG vision.	<p>Positive</p> <ul style="list-style-type: none"> Reduced legal and regulatory risks, including penalties and fines for non-compliance with environmental regulations <p>Negative</p> <ul style="list-style-type: none"> Increased regulatory scrutiny and carbon pricing can lead to increased costs for the Company. Disruptions in the supply chain due to extreme weather events can lead to production delays and increased costs. Increased insurance costs and reputational damage due to climate-related incidents can negatively impact the Company's financial performance.

SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

GPIL is guided by a comprehensive set of Board-approved Policies that cover NGRBC principles (P1 to P9) and the underlying core elements. GPIL will continue to update these systems and processes in line with evolving disclosure standards, locally relevant laws, best industry practices and Environmental, Social and Governance (ESG) requirements. The overall responsibility for ensuring the implementation of policies resides with various committees designated for operationalizing the policies. The policies covering these principles are available on the Company's corporate website www.godfreyphillips.co under 'Policies' section.

Governance, Leadership and Oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets, and achievements (listed entity has flexibility regarding the placement of this disclosure)

For GPIL sustainability is a vital responsibility that it owes to the planet and future generations. The Company's legacy of care and long-standing philosophy of 'People-First' is integrated into its day to day business decisions, and now, its sustainability strategy as well. The Company is committed to driving efficiency and creating long-term value for all its stakeholders while mitigating the risks and impacts of its operations on the environment, society, and economy. But the Company is cognizant that efficient operations and sustainability measures are only feasible by inclusion and collaboration of all its stakeholders. The Company's efforts to promote togetherness and a shared sense of purpose inspire its workforce to strive for better outcomes. The Company strongly believes in its aim of 'Together for a Better Tomorrow' and its each action is targeted to this end goal.

GPIL's sustainability strategy is built on the strong foundation of ESG principles, which guide the Company's decision-making and actions. GPIL is constantly striving to reduce its carbon footprint, enhance social impact, and operate with the utmost integrity and transparency. The Company firmly believes that sustainability is not an option but a critical pillar for its growth and success.

GPIL's sustainability strategy places significant emphasis on social impact, reflecting its fundamental value of "People First." The Company is dedicated to improving the lives of all stakeholders, including employees and the communities in which it operates. GPIL has been certified as a Great Places to Work for five times consecutively. The Company views the certification as a testament to the rich culture of the organization with some of the best practices that encourage learning, empowerment and risk taking. Philosophy of empathy and care-before-business ensures that people remain at the core of all decisions.

Furthermore, GPIL maintains a robust CSR program with various initiatives aimed at improving livelihood, health, and hygiene, eliminating child labour and encouraging education in marginalised communities associated with the Company. The program is also working towards mitigating climate change risk by working on conservation of water, soil, and environment. The program is improving lives of thousands of beneficiaries. Employees and stakeholders take great pride in their association with GPIL, witnessing the positive impact of the CSR programs on farmers and their communities, as well as the Company's unwavering commitment to CSR.

The Company's sustainability strategy also aims to reduce its environmental implications (carbon emissions, raw material consumption, water usage, waste generation, etc.) by adopting sustainable strategies like energy solutions, optimising resource consumption, and minimising waste. Ambitious targets and goals have been set to drive progress in this area.

GPIL is dedicated to promoting transparent business practices across its operations and has implemented several measures to ensure compliance with highest ethical standards. The Company's Board of Directors is committed to maintaining best practices of corporate governance and code of ethics.

The Company is pleased to present the Business Responsibility and Sustainability Report. This report includes comprehensive disclosures related to Environmental, Social, and Governance (ESG) indicators in accordance with the format prescribed by the Securities and Exchange Board of India (SEBI).

For GPIL, the Business Responsibility and Sustainability Report serves as an important instrument for communicating with our stakeholders about our performance beyond finances and our commitments to the Environment, Society, and Governance (ESG). This report goes beyond essential indicator disclosures and includes leadership indicators and other critical data to promote accountability and transparency in operations.

LEADERSHIP INDICATORS

1. Awareness programs conducted for value chain partners on any of the principles during the financial year:

Total number of awareness programs held	Topics / principles covered under the training	% of value chain partners covered (by value of business done with such partners) under the awareness programs
GPIL conducted 14 awareness programs for a section of its value chain partners, mainly the farmers in the Burley tobacco growing region of Andhra Pradesh. The sessions were on Agricultural Labour Practices That covers all labour and human rights principles.	Principle 5: Business should respect & promote human rights	The Company currently only has awareness programs for the burley tobacco farmers which comprises of the 12.69% of the total value of sourcing. GPIL understands the importance of extending these programs to other value chain partners and is actively exploring opportunities to expand the scope of these programs to include other stakeholders and promote the principles of NGRBC across operations.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If yes, provide details of the same.

Yes. The Company's Code of Conduct requires the Directors, senior management, and employees to avoid situations in which their personal interests could conflict with the interests of the Company. The processes are outlined in the Code of Business Conduct of the Company which explains expected behaviour while dealing with internal or external stakeholders. There are structures, procedures, and practices to promote this principle across the value chain. The Board of Directors and Senior Management Personnel are required to give annual declaration of compliance with the Code of Conduct of the Company.

Further, the Board of Directors are also required to furnish declarations, disclosure of interest and intimate vide Form DIR 8 pursuant to Section 164(2) and Rule 14(2) of the Companies (Appointment and Qualification of Directors) Rules, 2014, confirming that they have not incurred disqualification u/s 164(2) of the Companies Act, 2013, and that they stand free from any disqualification from being a Director.

A policy on Related Party Transactions (RPT) and determination of Material RPT has been formulated and approved by the Board. Details of such policies are available at <https://www.godfreyphillips.co/company/investor-relation/corporate-governance/policies>. Whenever, there is a Related Party Transaction with entities in which GPIL's Directors have interest, such transactions are reported to the Audit Committee for their information and for seeking necessary approvals from time to time.

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe

GPIL has streamlined business practices that align with sustainable development, which the Company has built over the years by taking inputs from a wide range of stakeholders. As the Company's business operations evolve, GPIL will continue to strengthen its sustainability strategies.

For a better understanding of the disclosures related to this principle, see the question-by-question inputs and responses below.

ESSENTIAL INDICATORS

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2022-23 Current Financial Year	FY 2021-22 Previous Financial Year	Details of improvements in environmental and social impacts

The Company also uses energy efficient instruments to reduce its natural resource consumption.
Capex	1.1% (Rs.90.0 lakhs) Environment: 60% Rs.54 lakhs Social: 40% Rs.36.0 lakhs	0.1% (Rs. 6.0 lakhs) Environment: 100% Rs. 6 lakhs Social: Nil (0%)	GPIIL constantly monitors and tests new methods for developing environmentally friendly process & products. The Company prioritises use of technology/ systems to reduce its environmental impact.

2. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, the Company endeavours to embed the principles of sustainability in all its business practices. Vendors operating from close vicinity to the plant location are given preference to the extent possible, as it helps save on transportation and inventory carrying costs. Systematic documentation and records are maintained to ensure that the Company's codes are honoured, and transactions are transparent & ethical. Non-conformities are identified & addressed through appropriate process controls. Vendors' compliance for PAN/ GST and TDS is investigated while onboarding them. They are also assessed based on their expertise in delivering the goods in time and meeting quality requirements.

All significant raw material vendors engaged with the organisation have ISO certifications. For suppliers of raw material and packaging materials, the Company engages in vendor growth activities.

Furthermore, GPIIL has procedures in place for sustainable sourcing of tobacco leaves and stems from burley tobacco farmers (other than purchases on auction platforms maintained by Tobacco Board), requiring them to comply with the applicable labour laws, practices as per the ALP (Agriculture Labour Practices) Code and to practice good agricultural practices prescribed in the farmer's handbook. The Company provides field technicians with a customised digital application to collect data and monitor the progress of the farmer against the compliance checklist.

The following materials are sourced sustainably:

1. Biaxially-Oriented Polypropylene (BOPP) for cigarette packaging
2. Paperboard for cigarette packaging, secondary packaging, corrugated cartons, gum tapes
3. Cigarette paper, tipping paper, inner frames, inserts
4. Burley Tobacco Leaves

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, what is the coverage of such a system?

Yes. GPIL has a management system for occupational health and safety that is accredited to ISO 45001:2018. The system is thoroughly documented and used throughout GPIL's factory operations. The system is effectively supported by several committees, which promote safety activities to go along with the objective in compliance with occupational health and safety measures. Certified external auditors conduct audits of this system annually. Over and above, the Company periodically organises health screenings, vaccination drives, sessions on fitness and wellbeing, and maintain a safe and hygienic work environment

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has identified the EHS Risk Management framework as one of the integral steps towards building a robust safety management system. This framework entails a set of processes for continual risk identification, assessment, and mitigation, with active participation of the workforce in each of its facilities. Shop floor processes in this regard include hazard spotting tours, suggestion schemes, daily briefings, and periodic EHS committee meetings in which employees participate.

Furthermore, GPIL has a Hazard Identification and Risk assessment process of ISO, ASPECT IMPACT, OCP and Training and Awareness programs to cater to the above.

To identify workplace hazards, GPIL regularly conducts Job Safety Analysis and Hazard Identification and Risk Assessment (HIRA) for individual tasks. To address near-miss incidents, the Company has created control measures that are intended to reduce the identified workplace hazards and record them in the risk register.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks.

Yes. GPIL has processes for workers to report the work-related hazards and to remove themselves from such risks. There is also a provision for Near Miss Report form to report and inform the management in case of near miss incident. Furthermore, GPIL encourages its workers to report hazard and their issues in central department safety meeting, safety committee meeting as well. At a few divisions, emergency response procedures are also in place.

d. Do the employees/ workers of the entity have access to non-occupational medical and healthcare services?

Yes, employees and workers have access to first aid available within the factories and premises along with a doctor visiting the premises on a regular basis. Employees have access to the Company's medical benefits for hospitalization expenses reimbursements through special sanctions. The staff grade employees have access to medical benefits through Company provided Mediclaim policy premium reimbursement scheme up to a certain ceiling. Furthermore, the employees have group insurance policies with accidental benefits, medical allowance up to one month of basic pay which also gets carried forward in case of unutilized amount, and for other category of employees and workers, statutory benefits under ESIC.

11. Details of safety related incidents, in the following format:

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

Internal audits of the Company are conducted on a periodic basis. Information about safety-related incidents is captured through near miss reporting and safety tickets. There is a process for in-depth investigation to be carried out in case of any accidents and corrective preventive measures to be taken based on the findings.

The information and data collected is disseminated across the organisation at periodic intervals and a formal compliance is obtained.

LEADERSHIP INDICATORS

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

A. Yes, GPIL provides term life insurance for management employees. Going forward, the term life insurance will be provided to other employees as well.

B. No, GPIL does not provide term life insurance to workers. In the event of accidental death, there is a compensatory package provided.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The Company engages vendors who are fully compliant with applicable laws based on their track record. GPIL ensures necessary checks are in place and statutory dues as payable by service providers for employees are deposited on time and in full through a process of internal control mechanism. The Company takes challan copy regarding deposit of PF and ESI of employees and workers engaged by contractors and third parties while processing their bills for payment. Furthermore, online checking of GST returns or deposit proof of PF and ESI by the said contractor or third party is also carried out.

3. Provide the number of employees / workers having suffered high consequence work related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Yes, the organisation ensures that in cases of layoffs, terminations, or early retirements, supervisors and management provide recommendations to enable employment. The Company also invests in human capital development to enhance the employability of the workforce and enable a smooth transition to alternate opportunities when sought. The Company also has an elective superannuation fund to which it contributes 15% of the basic pay to the said fund based on the choice exercised by the concerned employee and on retirement or severance of employment, the eligible employee is required to subscribe to annuity plan of LIC to the extent of 2/3 or full of the balance lying in his/her account. This helps the employee to reap monthly annuity / pension from the retiral plan. The retired or disassociated employees also get monthly pension from the EPFO based on his/her contribution and length of service.

5. Details on assessment of value chain partners:

GPIL's Supplier Code of Conduct lays out guidelines for value chain partners and their operations. The Company has internal processes for assessing its supply chain partners. For Burley Tobacco Farmers, additionally there has been an independent assessment by an international entity that included health & safety and working conditions.

	% Of value chain partners (by value of business done with such partners) that were assessed
Health and safety conditions	-
Working conditions	-

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Periodical internal and external assessments for burley tobacco farmers have been conducted through third party auditors such as Control Union, on the Company's farmer communities', their working conditions, and health & safety standards. Exposure to Green Tobacco illness, exposure during pesticide & fertilizer use are some of the health hazards identified in the tobacco value chain. These hazards can be mitigated by regularly educating, monitoring, and ensuring stringent process is followed by the farmers and workers. Specific instances include usage and disposal of PPE, hazardous material etc, during the time of harvesting, while using pesticides and using safety gear while stitching etc., GPIL has ensured that these incidences are corrected on high priority through stringent processes.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

The Company maps, manages, and promotes interests of its internal and external stakeholders across its value chain. GPIL engages and communicates consistently with employees, workers, customers, suppliers, investors, shareholders, retailers, tobacco farmers and labourers, civil society organisations, and local communities of areas the Company operates in.

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.

The process of identifying stakeholders typically involves a systematic and iterative approach to understanding the various groups or individuals who have an interest or may be affected by an organisation's activities.

Following are the steps that were followed to identify key stakeholders' group:

- Internal stakeholder mapping: The Company conducted internal stakeholder mapping exercise to determine and categorise groups or individuals within the organisation who are part of the critical functions in the organisation and who have a direct connection with external stakeholders. This includes employees, managers, executives, and board members.
- External stakeholder mapping: The Company also conducted an external stakeholder mapping exercise to identify and categorise groups or individuals outside the organisation who have an interest or impact on its sustainability activities. This primarily includes customers, bankers, suppliers, investors and communities that include burley tobacco farmers, retailers, hawkers.

- c. Stakeholder prioritisation: Once the stakeholders were identified, the Company prioritised them based on their level of influence and impact on the business and the level of impact that the business activities have on them. This helped the Company determine the most critical, vulnerable and marginalised stakeholders it needed to engage more deeply with.

Through this process, the Company aims to ensure that it is addressing the most important sustainability challenges and opportunities facing the organisation by engaging with the right set of stakeholders in a transparent and accountable manner.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

Government Bodies	No	Industry Association	Need Based	In the interest of stakeholders and millions of people whose livelihood is dependent on the Industry, the Company engages with Govt. authorities through evidence and data based advocacy, directly or through industry bodies.

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The process for consultation is highlighted below:

- Identification of stakeholders
- Evaluation of standards and frameworks
- Surveys with stakeholders and secondary assessment
- Assessment of material issues
- Mapping of material issues as per importance to stakeholders
- Development of materiality matrix and communicating the same to internal stakeholders (including the ESG Committee) for decision making

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Surveys with stakeholders who have an impact on GPIL's sustainability strategy and priorities have been conducted recently at the group level of the organisation, and the Company strives to include the viewpoints of all groups of stakeholders in its policy development and other business activities.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

GPIL's community (farmers, retailers, and hawkers) are among the vulnerable/marginalised stakeholder groups of the Company. The limited resources and opportunities are often challenging for these groups. The Company prioritises assistance and support for them.

The Company's CSR policy has put in place several programmes to help vulnerable and marginalised burley tobacco farmers. The initiatives under the program range from mitigating climate change risk through conservation of water, soil and environment while creating awareness and educating on the issues through activities that aid better health, access to safe drinking water, eliminating child labour and encouraging education of children.

The Company also educates and monitors farmers on the Agriculture Labour Practices that include topics of best practices on agriculture, mechanisation, health & safety awareness on subjects of green tobacco illness, using and disposing off PPE etc. Regular workshops are also held to discuss labour rights, dispute management and other relevant subjects.

Principle 5: Businesses should respect and promote human rights

The Company gives utmost importance to human rights issues and has various policies pertaining to the same. **Policies on Human Rights, Code of Business Conduct, Equal Opportunity Policy, Health & Safety, Prohibition of Sexual Harassment at Workplace, Suppliers Code of Conduct, Whistle Blower Policy** along with a Grievance Redressal System have been established to uphold human rights at GPIL. The Company also complies with all applicable national and regional laws and regulations to uphold its commitments to human rights.

ESSENTIAL INDICATORS

1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format:

The Company has an intensive process of induction and all employees who join the Company are first taken through all the policies, Code of Conduct, values and ways of working. All queries and clarifications are addressed proactively. Over and above, awareness and reinforcement of the guidelines are conducted in the Financial Year.

10. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

At present, no such concerns have been raised. However, there is a process defined for the complaints in the various policies.

LEADERSHIP INDICATORS

1. Details of a business process being modified / introduced because of addressing human rights grievances/complaints.

Code of Business Conduct and Human Rights Policy has been deployed across the Company. The Company has not received any human rights complaints.

2. Details of the scope and coverage of any Human rights due diligence conducted

Human rights due diligence pertaining to child labour, minimum wages, employee benefits, and grievance redressal is undertaken across the burley tobacco supply chain in accordance with the Agriculture Labour Practices (ALP) Code. The ALP Code is continuously discussed with the farmers during farmer meetings as well as during their regular field technician visits. GPIL implemented various measures to address pervasive and systemic problems in accordance with their risk assessment. Three ALP code Principles—income and work hours, fair treatment, and a safe working environment—were the key findings during Control Union’s farm visits. Farmers, family members, and workers who provided feedback to Central Union indicated that the ALP Program had increased workplace safety and danger awareness, and that no children were involved in tobacco production. Additionally, the following code principles were considered:

- ALP Code Principle 1: Child labour
- ALP Code Principle 2: Income and work hours
- ALP Code Principle 3: Fair treatment
- ALP Code Principle 4: Forced labour
- ALP Code Principle 5: Safe work environment
- ALP Code Principle 6: Freedom of association
- ALP Code Principle 7: Terms of employment

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

GPIL strives to create an inclusive workplace environment by supporting differently abled visitors and providing them with accessible infrastructure whenever required and wherever necessary.

4. Details on assessment of value chain partners:

GPIL's Supplier Code of Conduct lays out guidelines for value chain partners and their operations. The Company mainly sources from credible suppliers with strong focus on human rights, sustainability in its operations. Going forward GPIL will establish stronger framework for all value chain partners. For Burley Tobacco Farmers, there has been an independent assessment by an international entity that included several subjects along with human rights.

	% Of value chain partners (by value of business done with such partners) that were assessed

Other Non-hazardous waste generated (H) . Please specify, if any. (Break-up by composition i.e., by materials relevant to the sector)	1,149.0	957.7
Total (A + B + C + D + E + F + G + H)	1309.5	1059.8

*Note: The plastic waste saw a one- time increase in quantity as Company moved a key input material from plastic to biodegradable. The older material was sent for recycling.

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)		
Category of waste		
(i) Recycled	76.6	8.6
(ii) Re-used	13.9	13.6
(iii) Other recovery operations	-	-
Total	90.5	22.3
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	14.4	4.6
(ii) Landfilling	71.9	77.0
(iii) Other disposal operations	1,130.2	955.5
Total	1,216.4	1,037.1

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

GPIL continuously monitors for any hazardous waste in manufacturing units and have built-in processes to manage the waste within the permissible limit as laid down by regulations. The Company has initiated measures across units to ensure waste minimization, segregation of waste at source and disposal through authorised recyclers.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format.

S.No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) if no, the reasons thereof and corrective action taken, if any.
The entity does not have any offices or plants in ecologically sensitive areas			

11. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable, as GPIL is not required to conduct these assessments as it is in orange category					

12. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, GPIL's operations and offices comply with applicable environmental regulations and the Company follows the regulations and guidelines mandated by the Central and State Pollution Control Boards. We have Consent to Operate (CTO) as per all applicable Acts and these are renewed as required.

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken if any
Not Applicable				

LEADERSHIP INDICATORS

1. Provide break-up of the total energy consumed (in Joules or multiples) from renewable and non-renewable sources, in the following format:

Parameter	FY 2022-23 (Current FY)	FY 2021-22 (Previous FY)
From renewable sources (UoM: MJ)		
Total electricity consumption (A)	1,83,86,971.2	1,52,47,004.4
Total fuel consumption (B)	-	-
Energy consumption through other sources (C)	-	-
Total energy consumed from renewable sources (A+B+C)	18,386,971.2	15,247,004.4
From non-renewable sources (UoM: MJ)		
Total electricity consumption (D)	6,56,86,719.8	5,68,30,782.0
Total fuel consumption (E)	15,39,732.0	13,91,708.4
Energy consumption through other sources (F)	2,15,15,769.1	1,90,87,162.9
Total energy consumed from non-renewable sources (D+E+F)	8,87,42,221.0	7,73,09,653.3

2. Provide the following details related to water discharged:

Parameter	FY 2022-23 (Current FY)	FY 2021-22 (Previous FY)
Water discharge by destination and level of treatment (in kilolitres)		
(i) To Surface water		
- No treatment	-	-

Total water discharged (in kilolitres)	9716.6*	9634.5

* Internal efficiency measures have led to improvement in water discharged in Kilolitre per million cigarettes produced from 1.5 in FY '22 to 1.3 in FY'23

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No

4. Please provide details of total Scope 3 emissions & its intensity, in the following format:

The Company is in the process of evaluating its Scope 3 emissions and implementing a monitoring and measurement system.

Parameter	Unit	FY 2022-23 (Current FY)	FY 2021-22 (Previous FY)
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent	-	-
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: No, the same is not applicable

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

The disclosure on this indicator would not be applicable to GPIL. All of GPIL's operating units are in industrial estates or business districts and not in ecologically sensitive areas

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Energy Efficiency	<ol style="list-style-type: none"> 1. Waste heat recovery option in screw vacuum pump for heating boiler feed water. 2. Use of energy efficient equipment's like screw air compressor, screw chiller plant, transformer, etc having lower specific energy consumption. 3. Upgrading old pumps / motors with IE3 or higher rated systems. 4. Use of Li-ion batteries for UPS for improved energy efficiency 5. Acoustic treated powerhouse for noise control 6. LED lights in office with location specific lumen control. 	These initiatives led to desired results of reduction in energy consumption with perpetual benefits and not just limited to short term.
2	Waste Management	<ol style="list-style-type: none"> 1. Recycle & Re-use of packaging items like C-48, Kraft paper, CFC, core, etc. 2. Recycling / incineration of plastic waste /hazardous waste / E-waste, etc. through authorised TSDF. 3. Use of Li-ion batteries for UPS for improved energy efficiency & reduced battery waste generation due to high life cycle of these batteries. 	Besides reducing cost of operations, these initiatives also led to optimization of resource usage.
3	Water Management Practices	<ol style="list-style-type: none"> 1. Adopted new technology for water reduction: Air cooled screw vacuum pumps, AHU upgradation with humidification provision. 2. Section wise monitoring of water with continuous review to control any deviation. 3. ETP equipped with SCADA system which controls 3-way valve to restrict waste water discharge in case it is not as per permissible limits of discharge norms. 4. Online monitoring of ETP outlet parameters-To keep good water quality. 5. Up-liftment of entire water distribution stream for arresting losses due to conventional systems. 	Water is one of the most stressed resources and it is critical for all businesses and functions within the organization to conserve and reuse to the extent possible. All initiatives are towards this direction.
4	Green Initiative	<ol style="list-style-type: none"> 1. Adoption of eco-friendly fuel PNG for boilers & cooking purpose in cigarette manufacturing plants since 2012 2. Replacement of old HVAC systems using conventional refrigerant with zero ODP & low GWP refrigerant equipment in phased manner. 3. Dual fuel conversion of Gensets to reduce greenhouse emissions 4. Developed green belt-planted over 350 plus trees around the compound wall of production facilities. 5. 3 biodiversity parks developed in Andhra where Leaf Division is based. The parks have approximately 9000 trees of over 31 species planted. 	Future looking initiatives helped cumulatively to decrease the carbon footprint. This is an ongoing program with range of initiatives that will help the organization to realize its ESG goals.

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, GPIL has a specific policy for business continuity and disaster management. There is a robust system in place to comprehensively identify risk, analyse and assess processes across functional areas of the Company. This helps in evaluating the worst-case scenarios that Company may be posed to and necessary action plans to be undertaken to mitigate them. Web link to policies: <https://www.godfreyphillips.co/company/investor-relation/corporate-governance/policies>

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

Mitigation and adaptation measures are especially relevant to GPIL's Leaf division. Due to usage of fertilizers & CPAs in the tobacco production certain GHG emissions are released. The Company has taken several mitigation measures to ensure minimal impact of the same on the environment by:

1. Training farmers on good agricultural practices in the Leaf Division (E.g., Application of recommended fertilizer & CPAs in recommended dosages, disposal of empty containers in CPA collection bin, Reuse, recycle & safe disposal of plastics, empty CPA containers, hazardous waste, non-NGRBC waste, Water reduction plan etc.),
2. Developing wood sustainability initiatives in the Leaf Division – Afforestation program, permanent community agriproduct sheds and dedicated burley tobacco curing barn structures,
3. Getting quarterly ambient air & waste-water quality tested by the authorised environmental laboratory to check whether pollutants are within tolerance limits in GPIL factories,
4. Two 7-acre bio-diversity parks each at Darsi and Kurichedu in Vinukonda area with over 9000 local plants have also been developed with another 8-acre land under development at Parchur. Additionally, GPIL has also planted over 350 trees within the factories.
5. GPIL also has an extensive water conservation program with check dams being built consistently in its water stressed Andhra Pradesh region it operates out of, along with other initiatives like borewell recharges, tank desiltations, pond development, farm ponds etc. Moreover, rain harvesting pits for ground water table regeneration have been installed in factories along with an ETP that ensures water reuse.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

12.7% farmers are assessed for environmental impact at the burley tobacco growing region in Vinukonda, Andhra Pradesh.

Principle 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**ESSENTIAL INDICATORS**

GPIL complies with all applicable regulations mandated by the government authorities and ensures responsible product marketing. It engages with relevant government authorities while ensuring that there is a balance of stakeholder's expectations from the Company and its own stringent governance standards. The Company also participates in forums that impact the interest of industry and its stakeholders in broad areas relating to governance and administration, economic reforms, environmental safety, energy security, sustainable business principles, taxes, water, etc. These renowned industry bodies also represent the Company with evidence and data based advocacy as and when required.

1. a. Number of affiliations with trade and industry chambers/ associations.

6 nos.

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such a body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Federation of Indian Chambers of Commerce and Industry (FICCI)	National
2	PHD Chamber of Commerce and Industry	National
3	ASSOCHAM (The Associated Chambers of Commerce & Industry of India)	National
4	Confederation of Indian Industry	National
5	Indo-American Chamber of Commerce	National
6	The Tobacco Institute of India	National

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

Name of authority	Brief of the case	Corrective action taken
Not applicable as GPIL does not have any adverse orders against it.		

LEADERSHIP INDICATORS

1. Details of public policy positions advocated by the entity:

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in the public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, if available
1.	Company engages with relevant regulatory authorities on pertinent issues of the Industry	Company engages directly or through apex industry forums and bodies	-	-	-

Principle 8: Businesses should promote inclusive growth and equitable development

The Company is committed to supporting inclusive growth and equitable development of the communities that are intrinsically linked to the industry and its operations. The Board of Directors has formulated a Corporate Social Responsibility policy and its impact is contained in the annual report and a CSR report separately. The Company has also constituted a CSR Committee of the Board in accordance with the provisions of Section 135 of the Companies Act, 2013.

The Company's CSR programs have been recognised by the office of the District Magistrate, Andhra Pradesh Government. It has received awards like Mahatma CSR Awards for Excellence 2020, Greentech Foundation CSR Award 2020 & 2019, Apex Awards 2019, ET Now CSR Leadership Award 2019, CMO Asia 2018.

ESSENTIAL INDICATORS

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web Link
Not applicable, as there were no projects that required SIA as per law in the current year.					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% Of PAFs covered by R&R	Amounts paid to PAFs in the 2022-23 (In INR)
GPIL does not have any projects/activities that would necessitate R&R.						

3. Describe the mechanisms to receive and redress grievances of the community.

GPIL regularly engages with the burley tobacco farmer communities in which the business operates and collaboratively designs interventions to address their concerns. The continuous engagement with the burley tobacco farmers and labourers under ISP (Integrated Sustainable Production) ensure regular meetings and workshops to understand challenges and issues, and address desired labour practices across social, health and safety spectrum,

Any disputes are solved amicably through informal ways by involving village elders / progressive burley tobacco farmers and local representatives.

Moreover, the Company prioritises the social challenges that need specific requirements and has designed programs to address those with various social interventions in alignment with its CSR policy. The CSR programs provide opportunities for communities to also address their grievances.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2022-23 (Current FY)	FY 2021-22 (Previous FY)
Directly sourced from MSMEs/ small producers	3.7%	3.9%
Sourced directly from within the district and neighbouring districts	45.9%	46.7%

LEADERSHIP INDICATORS

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not applicable, as there were no projects that required SIA as per law in the current year.	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent (In INR)
GPIL's CSR programs are not located in any aspirational districts.			

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

No, GPIL does not have a dedicated preferential procurement policy. Within the contracted farmer base, small farmers are considered as the marginalised and vulnerable group and we source from them regularly.

(b) From which marginalized /vulnerable groups do you procure?

GPIL procures part of its raw material from small burley tobacco farmers that are categorised as marginalised/vulnerable groups the Company engages with.

(c) What percentage of total procurement (by value) does it constitute?

4% of the total procurement is from small farmers.

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

Note: Traditional Knowledge refers to any indigenous, technical, ecological, scientific, medical, or cultural knowledge which is not necessarily documented but is in use by or generally known to communities. Typical examples include antiseptic properties of neem, turmeric, etc.

S. No.	Intellectual Property based on traditional knowledge	Owned/Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
Not applicable, since GPIL has not acquired any intellectual property based on traditional knowledge.				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the Case	Corrective action taken
Not applicable, since GPIL does not use traditional knowledge.		

6. Details of beneficiaries of CSR Projects:

S. No.	CSR Project	No. of persons benefited from CSR Projects	% Of beneficiaries from vulnerable and marginalized groups
1.	Biodiversity Parks	7500	15
2.	Check Dams	17953	7-8
3.	Desilting of community ponds	1835	8
4.	Tank Management program	685	15-16
5.	Installation of Community RO Plants to provide safe drinking water	14511	20- 22
6.	Borewell recharge installation	12209	20-22
7.	Health camps	4370	60-61
8.	Child Labour and After School program	10956	55
9.	Community Agri-sheds	483	2-3

Principle 9: Businesses should engage with and provide value to their consumers in a responsible manner

The Company places its customers (channel partners and value chain partners) at the focal point of all its decisions and strives to deliver best quality products, services, and experiences to create customer satisfaction and loyalty.

The Company operates strictly under applicable laws and adheres to all rules and regulations. It complies with all legal and regulatory requirements including but not limited to adherence to pictorial health warnings, as mandated by law governing the product packaging and labelling.

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company has instituted a customer complaint redressal system in place to address all complaints from customers. Customers are provided options to connect with the Company through email and telephone. Email id and customer grievance cell number is printed on products and customers can access other email ids on the Company website. All complaints received from the customers are acknowledged, investigated, and responded to as per the Standard Operating Procedures.

2. Turnover of products and/ services as a percentage of turnover from all products/ service that carry information about:

Company ensures that its products contain relevant information as required under applicable laws.

	As a percentage to total turnover
Environmental and social parameters relevant to the product	GPIL propagates responsible usage and disposal on packages (over and above the mandate) to the customers. The cigarette brand - FSS Valley, carries an awareness message on all its packs and this brand accounts for 9% of total turnover. The Company also from time to time mobilizes retailers to educate consumers about disposal of used packs responsibly.
Safe and responsible usage	All packs carry pictorial health warning and not for sale to minors, as mandated by law. Signages are also placed on all point-of-sale outlets and retailers are communicated to not permit sale to minors or to operate the outlet. Domestic sale of all cigarette packs carry information about safe and responsible usage, and these amount to 66% of total turnover.
Recycling and/or safe disposal	-

3. Number of consumer complaints in respect of the following:

	FY 2022-23 (Current Financial Year)		Remarks	FY 2021-22 (Previous Financial Year)		Remarks
	Received during the year	Pending resolution at end of year		Received during the year	Pending resolution at end of year

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	-	Not applicable
Forced recalls	-	No instances of forced recall

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes. To ensure data privacy and cybersecurity, an Information Security Policy has been developed. The policy provides a broad framework for implementing Information Security Management and creates awareness to all stakeholders relating to security risks pertaining to information and IT infrastructure used by the organisation. The policy covers information security organisations, which includes the Head of IT, Head of Cyber Security, various coordinators, and administrators.

Under the policy a Cyber Crisis Management Plan has also been developed and implemented to counter Cyber Attacks/ Cyber Terrorism by outlining a framework for dealing with cyber related incidents for a coordinated, multi-disciplinary and broad-based approach for rapid identification, information exchange, swift response, and remedial actions to mitigate and recover from malicious cyber related incidents impacting critical business functions and processes of GPIL.

These policies are available on Company's intranet.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of consumers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

GPIL operates fully in compliance with applicable laws. There have been no instances or cases that relate to corrective action on issues relating to advertising, delivery of services, cyber security and data privacy of consumers or relating to product recall or any penalty/ action by regulatory authorities.

LEADERSHIP INDICATORS

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Information on the products and services of the organisation are available for both domestic and international markets on the company's website www.godfreyphillips.co

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

The Company fully complies with all applicable laws and in particular the Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003 (COTPA) and the rules and regulations made thereunder which require all tobacco products to carry pictorial health warning. The cigarette packs manufactured by the Company carry the statutorily mandated pictorial health warnings.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Tobacco and cigarette products do not fall under the criteria of essential services.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey about consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

No

5. Provide the following information relating to data breaches:

a. Number of instances of data breaches along-with impact

No instances of data breach were observed during the reporting year.

b. Percentage of data breaches involving personally identifiable information of consumers

No instances of data breach were observed during the reporting year.
